Jutif Web

Fast, mobile-first websites that launch with SEO basics and tracking already working. Every site passes our Launch Standard before it goes live.

Landing Page 5–7 working days · 1 page, up to 8 sections · Tracked WhatsApp / form button · 2 rounds of revisions	from US\$550
Company Profile Starter recommended 2–3 weeks · Up to 5 pages · 1 service page written for Google · 2 rounds of revisions	US\$1,050
Company Profile Business 3–5 weeks · Up to 10 pages + blog (CMS) · A page per service for SEO (up to 5) · 3 rounds of revisions	US\$1,850
Web App depends on scope · Admin panel & user accounts · Paid discovery US\$250, credited if you go ahead · Built and paid in milestones	from US\$3,900

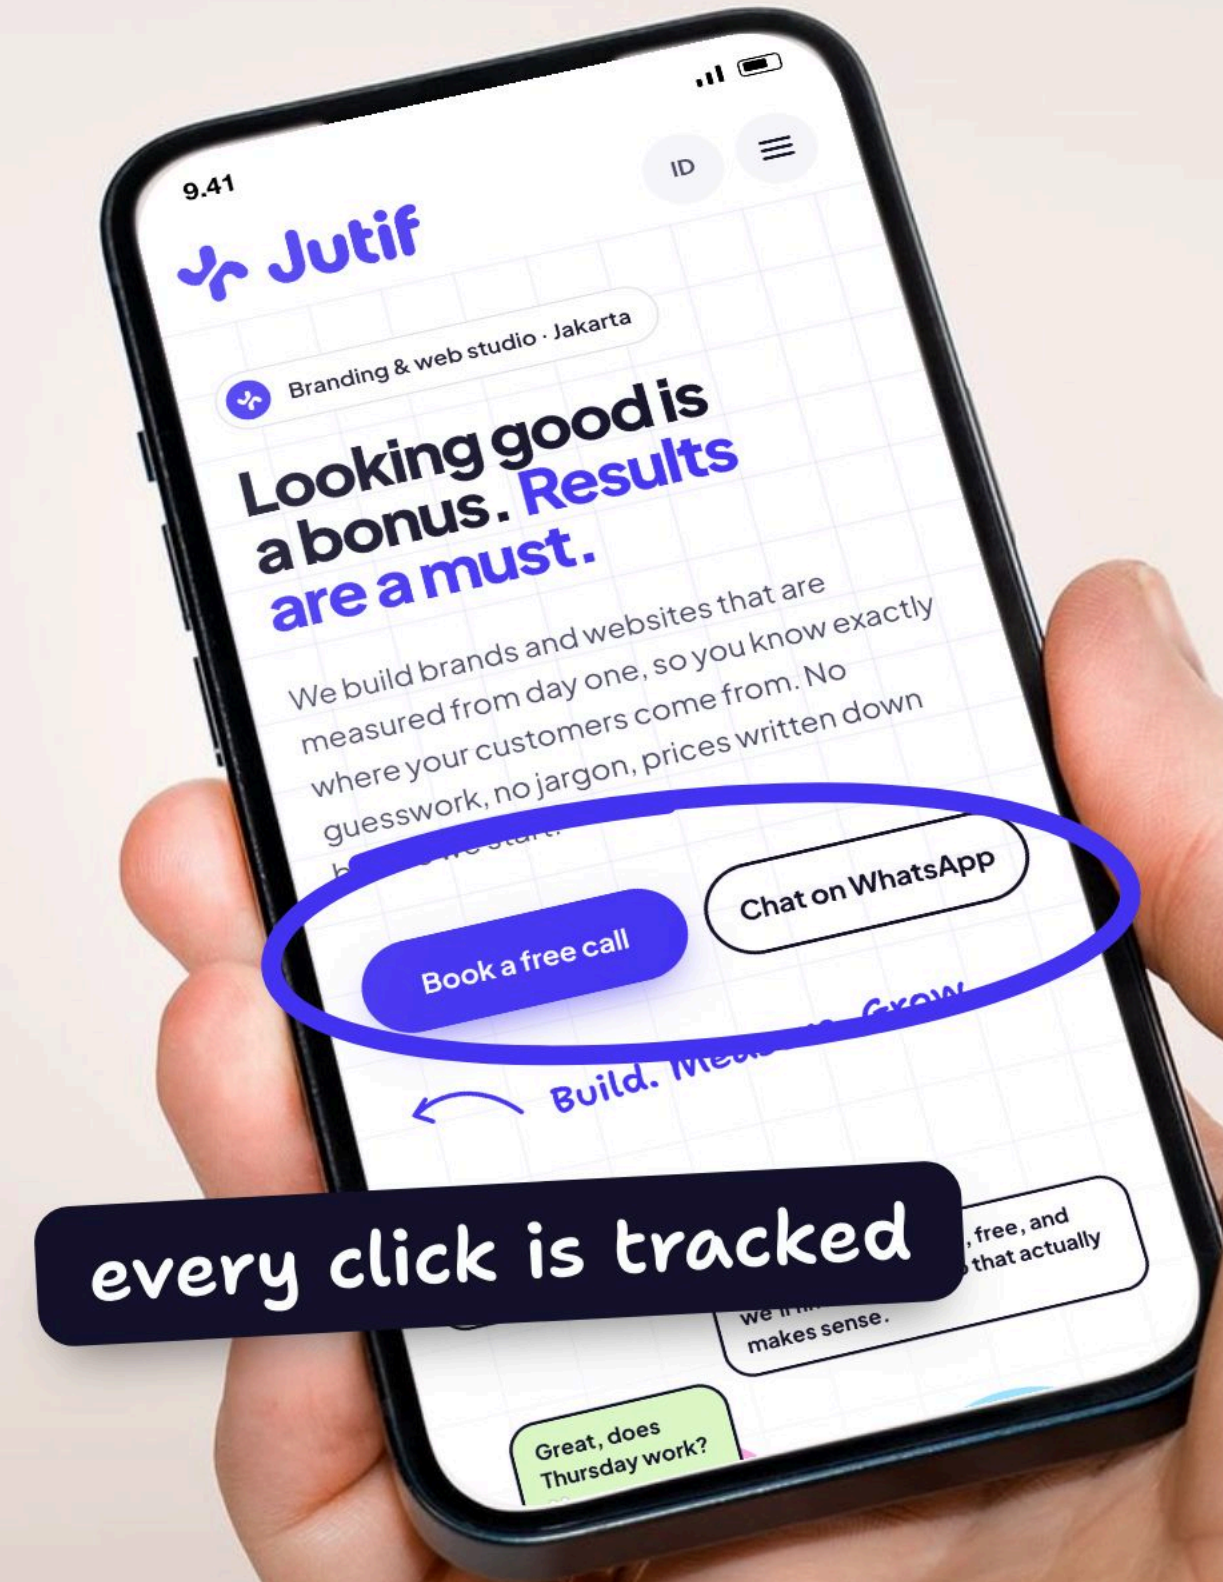

Your content comes from you, in any language your customers speak. New copywriting is quoted separately.

Every website passes the same check.

- ✓ **Technical SEO**
sitemap, metadata, structured data, Search Console
- ✓ **Meta Pixel + Conversions API**
Lead & Contact events, tested
- ✓ **Fast on phones**
Lighthouse mobile ≥ 90, passes Core Web Vitals
- ✓ **30-day bug warranty**
plus a written handover document
- ✓ **Google Analytics 4**
key events set up and marked
- ✓ **WhatsApp, phone & form clicks**
every enquiry shows where it came from

Included in every website package, not an extra. You get the check results at handover.

Jutif Web: Tracking

Already have a website (WordPress and Shopify too) and run ads? We set up measurement properly, then show you it works.

Tracking Basic

US\$230

one-time setup · Meta Pixel + standard events · GA4 + Google Tag Manager · WhatsApp, form & phone clicks tracked · Verification report

Tracking Pro

recommended

US\$550

one-time setup · Everything in Basic · Meta Conversions API (server-side) + deduplication · Google Ads conversions + UTM standard · Documentation & Looker Studio dashboard

Works on your site

WordPress, Shopify or custom-built: no rebuild needed.

Accounts stay yours

GA4, Tag Manager and Meta Business set up in your name.

Proof it works

A verification report showing each event firing.

Where did they come from?

Once tracking is set up, every enquiry shows where it came from.

How payment works.

Prices are in US dollars. A deposit to start and the rest before launch. Bigger projects are split into milestones, so you never pay far ahead of the work.

Wise

You send US dollars with Wise and it lands in our Indonesian bank account. Wise's own fee is on the sender's side, and it's usually the cheapest route.

PayPal

Pay the invoice by PayPal. No surcharge: we cover PayPal's fees.

Upwork, Fiverr or Contra

If we met on a marketplace, the platform handles the contract and payment. Prices there include the platform's fee, so they're higher than paying us directly.

● No VAT or sales tax added

● Quotes valid for 14 days

● Files yours once paid in full

Scope, price in US dollars, timeline and what's included, in writing before anything starts.

3

Build

We share progress as we go, with the agreed rounds of revisions.

4

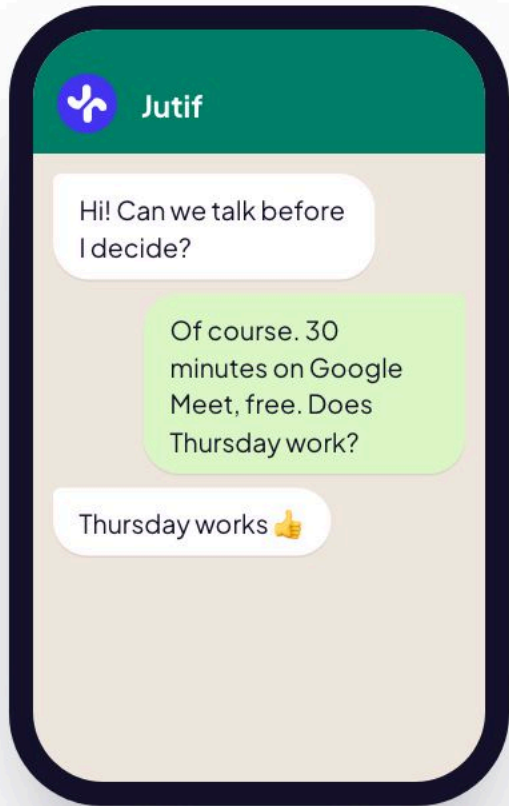

Launch Standard check

Every website is checked before it goes live: SEO, speed, tracking, forms, SSL.

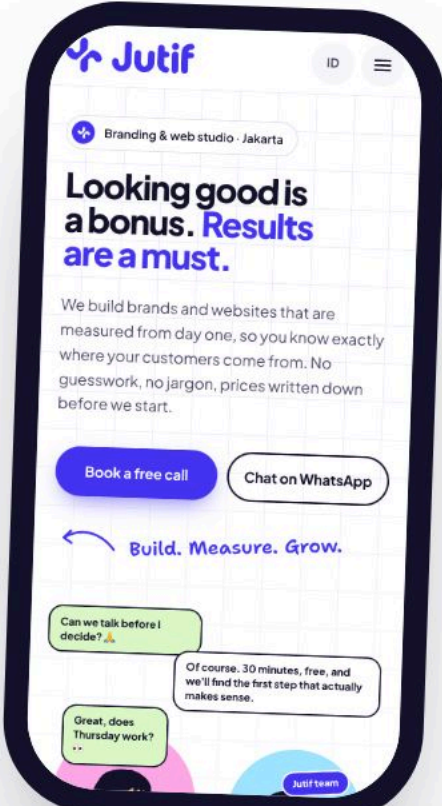

5

Payment: in US dollars, a deposit to start and the rest before launch; bigger projects in milestones. Wise, PayPal, Upwork, Fiverr or Contra.

So you don't have to **guess** either.

You're in Jakarta. Can you work with businesses elsewhere?

Yes. We already work remotely with clients across Indonesia: calls on Google Meet, updates by email or chat. Time zones are agreed at the start.

How do I pay?

In US dollars: a deposit to start, the rest before launch; bigger projects in milestones. By Wise or PayPal, or through Upwork, Fiverr or Contra.

Who owns the website and the logo?

You do, once the project is paid in full. Domain, hosting accounts, design files and code are handed over to you.

What language will my website be in?

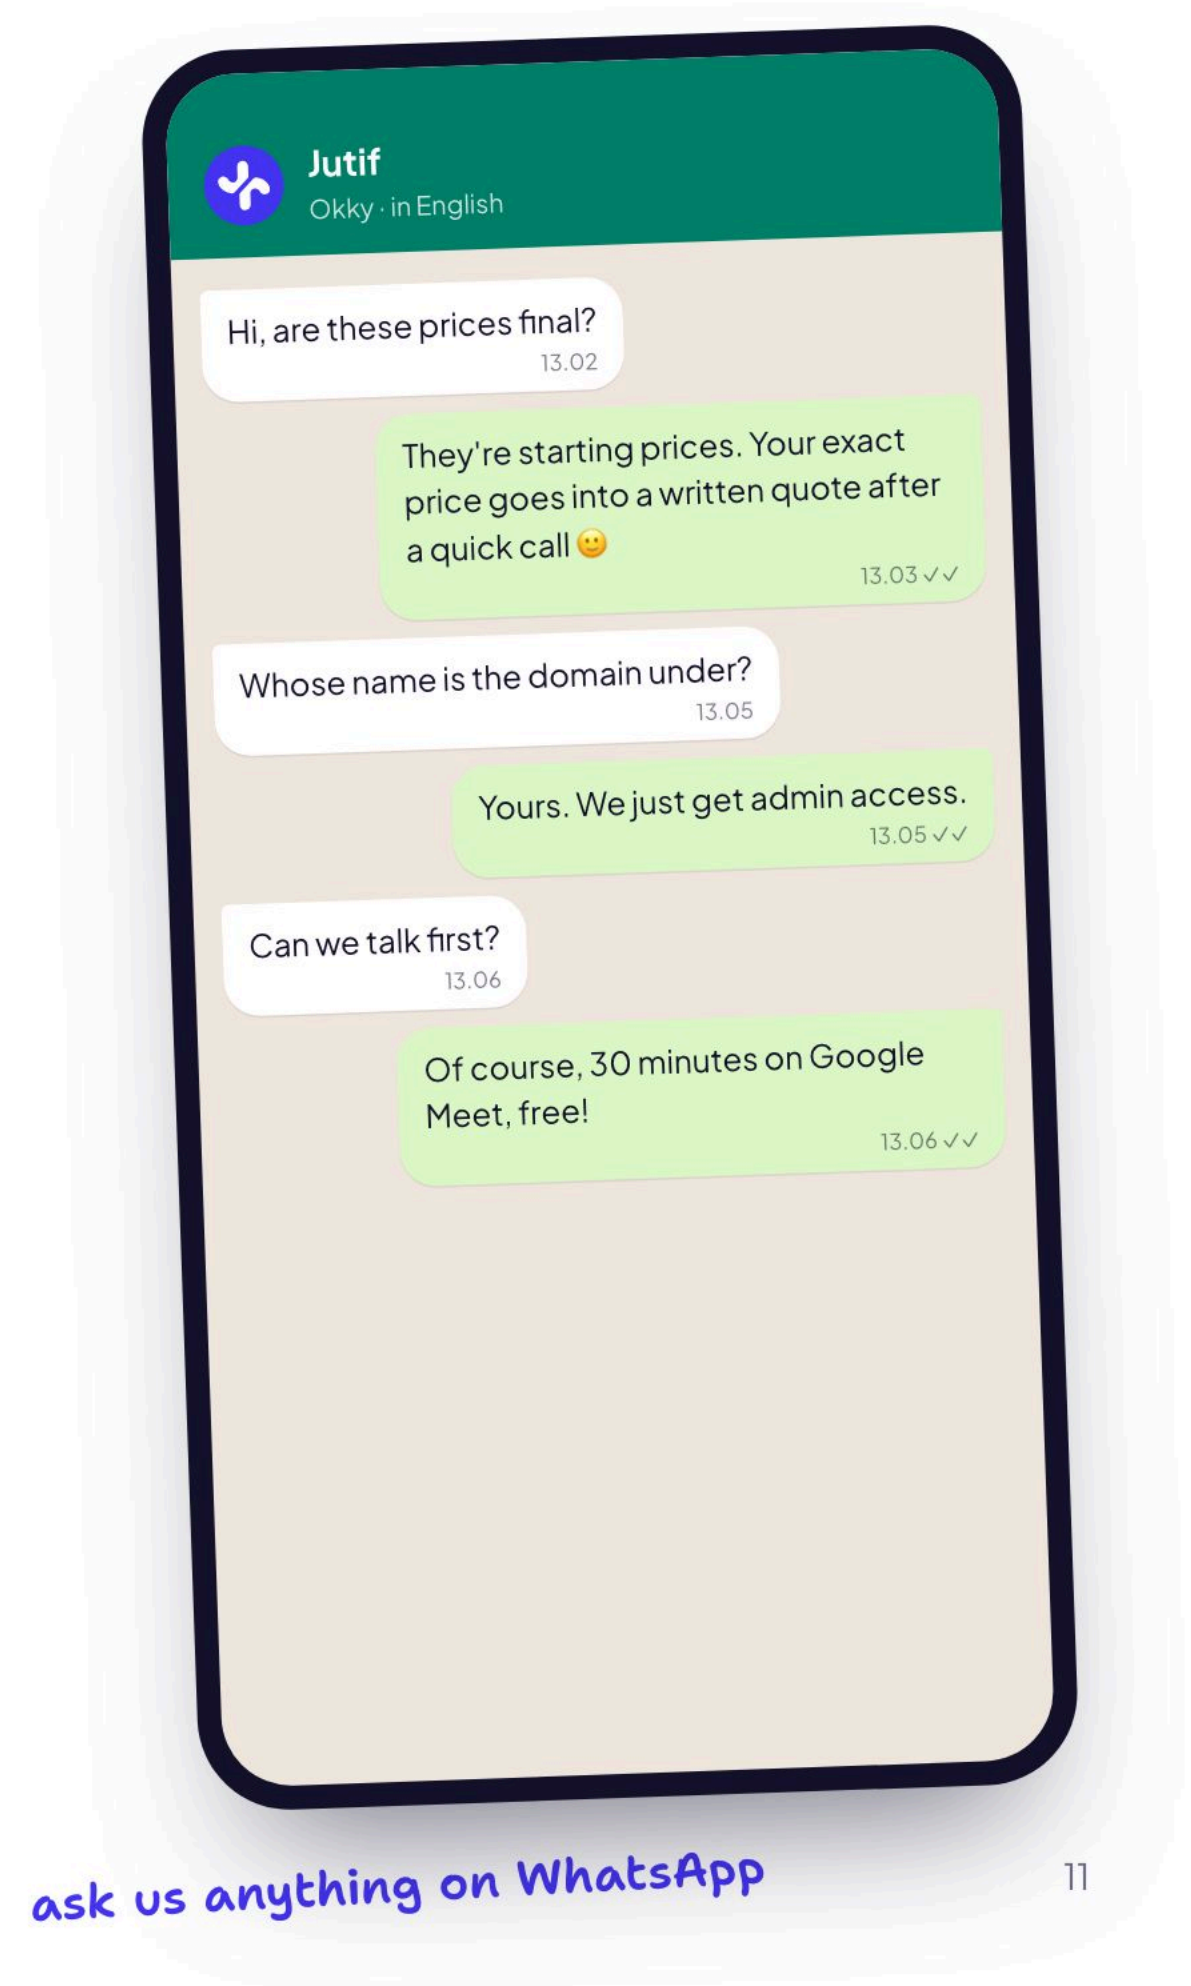

Whatever your customers speak. You provide the text or material, we shape it into pages. New copywriting is quoted separately.

Do you also run SEO, ads or social media?

Not for international clients yet. Every website still launches with SEO basics and tracking in place, so your marketing has good data from day one.

What happens after launch?

A 30-day warranty: if something we built doesn't work as agreed, we fix it free. Changes and new features after that are quoted separately.

Let's talk first.

Send us your business name and what you're aiming for. We'll book a free 30-minute call and give you an honest recommendation.
